

How to download the data

1. On the HPC terminal, go to the data/ folder with `cd data/`
2. In a browser, go to <https://lila.science/datasets/nacti>
3. Copy one of the links for the Images(1/4) folder
4. Back in the terminal, download the data file with `wget [PASTE LINK HERE]`
5. Wait
6. Unzip the file with `unzip [FILE NAME]`
7. Wait
8. Repeat steps 2-7 with Images(2/4), (3/4), (4/4), and Metadata (.csv).

The final data/ directory should look like this:

```
Parent_Folder/  
├── data/  
│   ├── nacti_metadata.csv  
│   ├── part0/  
│   ├── part1/  
│   ├── part2/  
│   └── part3/
```
